Military Status: Exempted

ABOUT ME

Frontend Developer with experience in building responsive web and mobile applications using **React.js**, **Redux Toolkit**, **React Native**, and **Vue.js**. Delivered performance-optimized interfaces, automated data pipelines using Meta Graph API, and improved user experience across multiple production projects. Strong collaborator with proven ability to ship scalable, maintainable code**.**

EXPERIENCE

Front-End Developer

Selah El Talmeez Company

May 2025 – Present

- Developed and maintained dynamic educational web applications using **Vue.js** to support thousands of student users.
- Improved page load speed and reduced bugs by optimizing JavaScript and using lazy loading techniques.
- Collaborated with backend developers and product teams to integrate **RESTful APIs** and optimize performance.

Freelancer

RBM.tools - *Meta API Integration for Marketing and Page Moderation*

Sep 2024 – May2025

- Developed and deployed a data-driven web dashboard using Meta API, improving client access to Facebook marketing insights and engagement data across 10+ pages.
- Automated user data retrieval and campaign tracking, reducing manual reporting time by 40%.
- Built custom moderation tools that allowed admins to manage over 200 posts and comments weekly, leading to a 50% boost in response time and page interaction.

Front-End Developer Trainee

MME Company

Aug 2023 – Jan 2024

- Completed a 6-month intensive training program focused on front-end technologies (HTML, CSS, JavaScript, React), building 5+ responsive web projects from scratch.
- Collaborated with a team of 4 developers to improve the UI/UX of internal tools, resulting in a 30% faster navigation flow based on user feedback.
- Debugged and optimized web components, reducing load time by up to 25% on selected projects.

EDUCATION

Bachelor's Degree, Faculty of Computer and Artificial Intelligence

Helwan University - Cairo, Egypt

Sept 2020 – June 2024

- **Major:** Information Systems (IS).
- **Minor:** Computer Science.
- **GPA:** 3.26 (Very Good With an honor degree).

SKILLS

- **Technical Skills:**
  HTML, CSS, JavaScript (ES6+), React.js, Redux Toolkit, React Native, Bootstrap, Material UI, AJAX, C#, Git, GitHub, OOP, VS Code, REST APIs, Tailwind, TypeScript, OWSAP.

- **Soft Skills:** Rapid self-learner with proven ability to manage time effectively, lead collaborative projects, and solve real-world development challenges in team environments
